

2023 Homestead Tax Relief Grant

In 2023, Gov. Brian Kemp, along with the Georgia General Assembly, enacted the Homestead Tax Relief Grant (HTRG) program, in accordance with O.C.G.A §36-89-1. This one-time tax reduction program is for all eligible homeowners who have an approved Homestead Exemption in place on their primary place of residence in 2023. Property owners will receive the tax-relief grant in the form of an \$18,000 reduction in the assessed value of their homesteaded property; therefore, the tax reduction amounts will vary.

The Homestead Tax Relief Grant will apply to all millage rates with the exception of:

- Bonds
- Tax Allocation Districts
- Special Service Districts created after December 31, 2004

Rental properties and non-homesteaded properties are not eligible for the HTRG. The HTRG will be shown as a line item on your tax bill and will be shown as a reduction to your calculated property taxes.
